Subject: Spring 2023 Class Registration Open – Advance Academy

Dear parents and students,

I hope you are doing well and safe in this summer. Thank you again for choosing Advance Academy.

It's my privilege to welcome all new and returning students to Advance Academy's Spring 2023 session. Advance Academy continues to have an **on-campus and online** session to support students who don't want to go to the campus or are not in Houston area, with the same high standards that our community has come to expect – rigorous coursework, top-level instructors, and above all a rewarding and enriching educational experience for our students.

Registration online for the Spring 2023 classes will be open from December 3, 2023 to January 13, 2023 on our website at https://registration.advanceacademyhouston.com/ or from our Web page, go to the Registration menu and select Enroll Online. Please review the attached class schedule for full information on class times and registration guidelines.

Our class offering will remain the same, and we have added several distinguished faculty members such as AP English, elementary and high school Math teachers who will continue to improve our high standard of instruction. Based on popular demand, we have also added several new classes such as **Python Programming Fundamentals, AP Java A** in order to broaden our educational mission. We have selected instructors for these classes to the same high standards as our existing teachers, and we are pleased to welcome these new faculties to the Advance Academy.

I welcome all new and prospective students and their parents to our educational community, and I hope to see you in our classrooms soon. You will have tremendous and fruitful learning opportunities at Advance Academy.

As always, please don't hesitate to contact me if you have any questions.

Best Regards,

Howard Xu, Ph.D.
Director, Advance Academy
